**Friendly advice**

As a tourist you are most welcome in Laos and people will friendly welcome you everywhere. You can stay in a village or in a guesthouse, you will always be safe. Whether you are a man or a woman. Your bike as well!

In return please, respect the people of Laos, their beliefs and their culture.

Respect them when you pass by a village and reduce your speed.

Before crossing a river, always check the depth of it. It can save your engine and your holidays...

Everyday check the oil level of your bike and the tension of the secondary chain for the same reason than above.

Wearing a helmet is compulsory in Laos, don't give the police a chance to get money from you... and protect your head by the same way.

And always remember: LIFE IS BEAUTIFUL!

We most recommend our friend's place for a complete warm up.  
Do not hesitate to release your weariness at Papaya Spa, The place to be !

For reservation ,  
please call 021 216550 or 020 5610565
